

## Interested In A Mobile Marketing App For Your Practice?

### **Promote Your Practice. Engage Your Clients. Grow Your Business.**

1. We provide a feature rich, custom mobile app for the iPhone and Android phone designed to promote your law practice, engage your clients, and grow your business.
2. We develop, host, and maintain your mobile app and make all technical and content updates as needed.
3. We upload and market your mobile app in the iTunes store and the Google Play store and we manage the mobile app review requirements and acceptance process per Apple and Google.
4. We help you market and promote your app and we track client usage, registered users, downloads, and other useful reporting metrics.
5. We manage the entire process for you so you can focus on practicing law and representing your clients.

### **Features Include**

- Custom design with your logo, colors, and images.
- Stay connected and engage with your clients wherever they are with one-touch calling and emailing.
- Provide GPS directions to your office.
- Allow clients to easily make appointment requests.
- Promote your practice with client referrals.
- Share your articles, reviews, and other resources with social media integration and personalized app notifications.
- Demonstrate to your clients your firm's commitment to serve them whenever and wherever they need you.

### **Annual Subscription Fee**

- Annual flat fee.
- Annual fee charged to your credit card.
